* Based on Fiscal year GDP figures											
** Debt service payments as a percent of the export of goods and services. The total debt service ratio represents the total debt service payments (i.e. on convertible currency & Rupee loans) as a percentage of the total export earnings (from India & other countries). Convertible currency debt service ratio is the debt servicing on convertible currency loans as a percentage of the export earnings from countries other than India. Similarly, the Indian Rupee debt service ratio is the debt servicing on Indian Rupee loans as a percentage of the export earnings from India. The debt service ratio for the latest period is calculated based on the previous year's export of goods and services.
